

Anatomy Faculty Position -Open Rank

Department of Cell Systems & Anatomy
Joe R. & Teresa Lozano Long School of Medicine
The University of Texas Health San Antonio

Applications are invited for two Open Rank faculty positions in the Department of Cell Systems and Anatomy (CSA), Joe R. & Teresa Lozano Long School of Medicine, at the University of Texas Health at San Antonio. We seek applicants interested and experienced in teaching human gross anatomy for dental, medical, health professions and/or graduate students, including lecture and laboratory courses with dissections. Candidates should have a PhD, MD, DDS, DVM, dual degrees, or international equivalent degrees. The ideal applicant will have formal coursework and experience teaching human gross anatomy and neuroanatomy to dental, medical, or health professional students so that they could immediately become an active participant in gross anatomy and neuroanatomy courses. The Department has a rich history of teaching and research excellence and innovation. Evidence of a strong commitment to excellence in teaching is preferred, and does not exclude candidates with research programs. Potential applicants are invited to visit our website <https://lsom.uthscsa.edu/dcsa/>.

The primary educational responsibilities will include contributing to high-quality anatomical instruction, including incorporating modern digital technology, course preparation and administration, delivery, assessment, and working collaboratively with other faculty teaching anatomy. Teaching formats include large-group lectures, small group active learning, and cadaveric dissection laboratory sessions. Experience with clinical case-based, team-based, and self-directed active learning pedagogy is preferred. Familiarity with three-dimensional anatomy software programs and virtual platforms will be an asset. The successful applicant will participate in scholarship and departmental, university, and external service activities to enhance their career development as a full faculty member. Research in CSA encompasses undergraduate medical education best practices and innovative tools, anatomic variations, cancer biology, aging, neuroscience, and stem cell biology.

In addition to clinical and academic departments, the UT Health at San Antonio is enriched by the Nathan Shock Center for Excellence in Biology of Aging, an NCI-designated Cancer Center, an NIH-funded Clinical Translational Science Award, and the Greehey Children's Cancer Research Institute. The UT Health Science Center is designated a Hispanic-Serving Institution. This is a wonderful opportunity for a new faculty member to join a department with outstanding educators and a diverse research portfolio in an institution that values clinical service, teaching, and research. The UT Health San Antonio is a Tier One research institution located in the northwest region of San Antonio, which sits as a gateway to the picturesque Texas Hill Country. San Antonio is among the fastest-growing cities in the nation with much to offer, including an attractive cost-of-living and dynamic culture, diversity, and history.

For full consideration, please visit the UT Health Careers Faculty applicant portal at: <https://uthscsa.referrals.selectminds.com/faculty> to apply for position 22001827 and upload a single PDF to include 1) a statement of interest, 2) a curriculum vitae; 3) a teaching philosophy statement with clear evidence of instructional experience in human gross anatomy and neuroanatomy; 4) teaching evaluations if available, 5) research or scholarship plans, and 6) full contact information of at least four academic or professional references. Review of applications will start immediately and continue until the positions are filled.

UT Health San Antonio is an Equal Employment Opportunity/Affirmative Action Employer and is dedicated to creating and fostering a diverse academic environment. All faculty appointments are designated as security sensitive positions.
