Masters of Science in Immunology & Infection

This two-year program is designed to integrate fields of immunology & infectious disease to provide big-picture multidimensional views of host pathogen relationships and produce graduates who are prepared to contribute solutions to challenges facing our biotechnology research and development industries, health care infrastructure, and teaching needs.

**Admission Requirements**
(minimum grade and test score cut-offs are guidelines; occasional exceptions may be given under special circumstances)

- Undergraduate degree from accredited US institution or proof of equivalent degree from a foreign institution.
- Preferred coursework in biological sciences, biochemistry, genetics, and cell or molecular biology. In addition, our most successful applicants have previous research experience.
- Grade Point Average no lower than a 3.0 on a 4.0 scale in the last 60 hours of coursework.
- GRE scores judged on case-by-case basis with an average minimum of 300. Exam must be taken within the past 2 years.
- International Applicants whose primary language is not English, are required to take the TOEFL (minimum score 68) or IELTS (minimum score 6.5).
- Three letters of recommendation that should be chosen from individuals who are familiar with the applicant’s academic accomplishments and can attest to the applicant’s readiness for graduate level studies.

**Application Deadlines**
Priority Review – April 1, 2019
Final Deadline for International Applicants – April 1, 2019
Final Deadline for all applicants – May 31, 2019
