

## Seminar Series Fall 2024

Date & Time	Room	Speaker	Title
Thursday 08/01/2024 12-1pm	LSOM 444B	Shenfeng Qiu, MD, PhD Professor Basic Medical Sciences University of Arizona College of Medicine-Phoenix	“MET receptor tyrosine kinase—from neurodevelopment to neurodegeneration”
Monday 9/9/2024 12-1pm	LSOM 444B	Terri Wood, PhD Distinguished Professor and Rena Warshow Chair in Multiple Sclerosis Dept of Pharmacology, Physiology & Neuroscience Cancer Institute of New Jersey, New Jersey Medical School	“Location, Location, Location: CNS Heterogeneity in Oligodendroglia, Myelin and Cholesterol”
Monday 9/30/2024 12-1pm	LSOM 444B	Theodore Price, PhD Ashbel Smith Professor Dept of Neuroscience & Center for Advanced Pain Studies University of Texas at Dallas	“Profiling the molecular identity of human nociceptors to gain new insight into mechanisms of diabetic neuropathic pain”
Monday 10/14/2024 12-1pm	LSOM 444B	Daniele Piomelli, PhD Distinguished Professor Dept of Anatomy & Neurobiology University of California	“Cannabis in adolescence: it’s time to take a new look”
Monday 10/28/2024 12-1pm	LSOM 444B	Shivani B. Ruparel, MS, PhD Associate Professor, Director of Research Dept of Endodontics UT Health Science Center at San Antonio	“Cancer’s Nerve and its Painful Connections”
Monday 11/18/2024 12-1pm	LSOM 444B	Ken Mackie, MD Distinguished Professor Dept of Psychological and Brain Sciences Jack and Linda Gill Chair, Gill Center for Biomolecular Science Indiana University Bloomington	“Cannabinoids for weight loss: A twisted tale”
Monday 12/9/2024 12-1pm	LSOM 444B	Yu Shin Kim, PhD Associate Professor Dept of Oral & Maxillofacial Surgery UT Health Science Center at San Antonio	“Novel ligand/receptor pathway for migraine and headache mechanism”
